

Essential Oils

Essential oils are the natural plant extracts that give plants their vitality and health and help fend off disease and insect attack. These oils are extracted from various parts of the plants (leaves, flowers, fruits, seeds wood or roots) by either hydrodistillation or cold pressing. Most essential oils are highly aromatic due to the volatile nature of their component parts. Not all plants and species contain essential oils and some plants contain more than one. If this is the case, the oils from that one plant will contain common properties as well as some individual properties. Each plant has unique characteristics and its own molecular make up giving the different aromas of each essential oil. The plants are carefully harvested and the oil is extracted and nothing else is added to it.

Vegetable and Liquid Carrier Oils

These are the fixed, non-volatile oils produced by the cold pressing of nuts, seeds and legumes. They are often used as a dispersant for essential oils and in cosmetics for their excellent moisturising properties. An oil which has not been refined to remove colour and odour by filtering or bleaching processes is known as a virgin oil and is generally considered to be the purest form. Unlike essential oils that are relatively stable over long periods of time vegetable oils are subject to oxidation and should be stored in airtight containers away from heat and light.

Liquid Carrier Oils -

Raw Materials

Cocoa butter is used as a natural skin-soothing cosmetic. it helps prevent the formation of scars when skin is cut or injured. Science now tells us the reason for this healing process is due to cocoa butter's beneficial effect on the growth of collagen in our skin and provides a barrier that helps retain and restore the moisture that your skin loses from cleansing and exposure to the elements. Cocoa butter is highly recommended for the prevention of stretch marks and may improve the appearance of pre existing stretch marks.

Cocoa Butter 1 kg.....	\$65.00

Shea Butter has been used in Africa for centuries, an excellent addition to moisturiser for a variety of skin conditions. It has an in built sun screen due to its cinnamic acid and Vitamin F content. Shea is an excellent cell regenerator and aids healing of sun burnt and damaged skin. Can be beneficial for eczema, dry skin, muscle tension, wrinkles, stretch marks both prevention and to reduce the appearance of pre-existing marks. It is also used for Liver spots and other irregular pigmentation of the skin.

Eclipse Shower gels

The base for our shower gels is from the Yucca plant; our gel contains no sodium laurel sulphate and is highly recommended for dry, sensitive and allergy prone skins. The base is gently enough to use for face, hands and body. Leaves the skin feeling, soft, smooth and clean without stripping the skin of its natural oils. Once you have used this you will never want to go back to using soap again.

Essential oil electric vapourisers

Eclipse recommend the use of vapouriser that do not require water, while candle burners may add a touch of romance to the art of vapourising essential oils, Eclipse recommend that for safety, you do not use candle burners around babies; small children and animals. Recently there has been a surge in the variety of electric vapourisers available commercially. Most still require water to reduce the temperature, Eclipse is not in favour of these type of vapouriser and currently only stocks The Aromatic vapourisers. The unit is thermostatically controlled so that there is no need for water thus, increasing the safety and effectiveness of this unit. If you are purchasing quality essential oils you do not want to ruin them by exposing them to excess heating.

Vapouriser	Unit price
Caramel, Sandstone, Honeycomb, Arctic white, Soft Lilac, Sky blue, Rich blue, Amazon green, Rosewood, Wild plum,	\$ 43.00 each
Rich blue with gold, Black & gold, Plum & Gold	\$ 52.00
Car scenters	\$ 20.00
Car scented refills	\$ 5.00 a pack of 5

The Aromatic vapouriser is a safe and effective way to gain the benefits of essential oils throughout your home. It cost approx. 10 c per week to run continuously. Before leaving home in the morning add 8 drops of you chosen oil to your vapouriser, when you return home you will be greeted by the beautiful aroma permeating your home - what a wonderful welcome!

Sinergus by Eclipse

Eclipse has a number of synergies that are ideal for the vapouriser. We have prepared these to make it easy for you to create that special ambience. Whether it be a calming and soothing effect, (Serenity), a stimulating effect, (Focus), or a sensual ambience, (intimacy). You may want to vapourise oils whilst meditating or exercising (Yoga synergy) Of course you can design your own perfect aroma and the vapouriser is a great way to explore the thousands of aroma combinations available to you - all you need is a few oils and a little imagination.

A synergy is a concentrated blend of 100 % Pure & Natural Essential oils skillfully blended together to create a harmonious blending of essential oils. Our synergies come in 10 ml bottle and can be added to vegetable oils, body lotions, shower gels, skin care products or used in the vapouriser and Spritzers. Eclipse have designed a variety of synergies to make using essential oils simple for everyone.
